-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

I. Rejection of claims 34 and 41 over Hayashi and Hirabayashi under 35 USC 103(a) will not be maintained in light of amendment filed 4/11/06. Rejection of claims 34 over Hayashi and Hirabayashi under 35 USC 103(a) will not be maintained in light of amendment filed 4/11/06. Claims 34 and 41 have been cancelled.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 36,43 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for other components like polysaccharides, fatty alkanolamides, glycols, nonionic emulsifiers and / or co-solvents for improving the form of the composition, does not reasonably provide enablement for all other compounds that may improve the form of the composition. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make / use the invention commensurate in scope with these claims. One of ordinary skill in the art would not know without undue experimentation which compounds would improve the form of the composition.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1616

Claims 36 and 37 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "other components" in claims 36 and 37 is a relative term which renders the claim indefinite. The term "other components" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. What does the term "other components" mean?

Allowable Subject Matter

Claims 36,37,38,42,44, and 45 are allowable. See reasons on record.
